Education

2023 – Present

- **B.Eng. in Communication Engineering, Tongji University**, Shanghai, China. GPA: **4.66/5.00**; rank: **3/87**; CET-6: **519**. Research: deployable trustworthy AI, multimodal learning, model compression, and risk-aware deployment.

Research Publications

IJCAI 2026

- Y. Xu*, **C. Chen***, and M. Cao, "OrthKD: Extracting Generalized Clinical Knowledge from Heterogeneous Teachers for Lightweight Deployment." **Accepted.** (*equal contribution)

IJCNN 2026

- W. Lei, M. Cao, C. Ye, Y. Xu, and **C. Chen**, "Enabling Visual Reasoning in Text-Only LLMs via Symbolic Scene Descriptions." **Accepted.** Corresponding author.

ICANN 2026

- Y. Cai, Y. Xu, and **C. Chen**, "Beyond Relevance: Counter-Evidence Planning in a Controlled Budgeted RAG Testbed." **Accepted.** Corresponding author.
- Y. Xu and **C. Chen**, "Budgeted Heterogeneous Ensembles for Robust OCR." **Accepted.** Corresponding author.

ACM MM 2026

- Anonymous submission A on open-vocabulary audio-visual event localization. **Under review. Reviewer scores: 4/4/4/4/3; approx. top 5%.** Co-first author.
- Anonymous submission B on transferable deformation attacks. **Under review. Reviewer scores: 4/4/3/2/2; approx. top 20–30%.** First author.

Ongoing Research

NeurIPS 2026

- Anonymous under-review project on neural-operator single-pass risk triage and deployable risk assessment. **Under review; first author.**

Awards & Honors

2024, 2025

- Tongji University Second-Class Scholarship (twice)

2025

- National Second Prize, Global Campus AI Algorithm Elite Competition; National Third Prize, Embedded Systems Competition
- Provincial Second Prize, National Undergraduate Mathematics Competition (twice); Provincial Third Prize, Mathematical Modeling and Statistical Modeling

Technical Skills

Coding

- Python, C/C++, MATLAB; data processing, numerical computing, and experiment scripting.

Machine Learning

- PyTorch, Scikit-Learn; knowledge distillation, multimodal learning, vision-language reasoning, audio-visual understanding, and model evaluation.

Deployment

- Model compression, risk assessment, neural-operator reliability; LaTeX, Git, Linux, technical writing, and visualization.
